## Artistic Research Residency spring 2023 – Application Form

<https://simularr.net/call>

Please give the requested information by filling in this form:

First name(s):

Last name:

E-mail address:

Phone:

Address:

Post code and Town/City:

Country:

Nationality/ies:

Gender (optional):

---

### Legal questions

Will you be employed by the University of Music and Performing Arts Graz (KUG) in 2023?

**If yes**, please indicate the duration and sort of your work contract:

Do you require a visa to work and reside in Austria?

Will you be employed by any other body than the KUG during the residency period?

Please note:

The residency program is open for individuals only, not for groups of artists-researchers. The studio apartment “Reagenz (Ost)” is suitable for single occupancy due to its size and immediate adjacency to the workspace, although it is possible to stay there as a couple. You are in any case free and welcome to bring your spouse or family to Graz, in which case you are advised to look for a larger accommodation (we can help with that). If you require child care, please get in touch with us to discuss options (M.A.M.A. and unikid).

---

Please include the following documents with your application:

- **Letter of Motivation** in English, maximum 1500 words in total.  
Your letter should give a clear indication of how your work and artistic/research practice pertains to “Simultaneous Arrivals”, what your prior exposure to collaborative practices are, and how your work may include spatial practices. You can use the motivation letter to refer to specific works of your portfolio that you deem relevant for the project.
  - **Portfolio** with at least two selected examples from your artistic works (preferably as URLs or download links; please make sure that links do not expire within two weeks time after sending the application, and downloads must not exceed 200 MB).
  - **Curriculum Vitae** (English) including list of works and publications.
- 

Submit this filled application form together with the requested documents/links until 01 December 2022, 24:00 CET, via email (max. 10 MB size) to [info@simularr.net](mailto:info@simularr.net).

---

Privacy Note: This application will be seen and reviewed by the project team (Rutz, Castillo, Hederer) and stored on a protected server space of KUG for the duration of the review. After the review, all data but the selected applications will be deleted, the selected applications will be stored on the project’s internal backup media for the duration of the project (2022–2025).

(form version: 05-Nov-2022, amended with child care notice)
